Report of Annual Meeting**Coleman Branch of Canadian Red Cross**

On October 2nd, 1918, at a public meeting of the Canadian Red Cross held at Coleman, the following officers and committee were elected:

President—Mrs. A. W. McLeod (re-elected).

Vice-President—Mrs. Q. E. S. Whiteside.

Secretary-Treasurer—Mrs. C. F. Dunlop (re-elected).

Superintendent of Work—Mrs. Neil (re-elected).

Committee—Mrs. Riddell, Mrs. W.G. Fraser, Mrs. Kane, Mrs. A. M. Morrison, Mrs. D. K. Allan, Mrs. McBryne, Mrs. Holmes, Mrs. Liddle, Mrs. Pizer, Mrs. Lonsbury.

There were seven regular and four special meetings held during the year.

The thanks of the Society are due to the following: McGillycuddy Local and mine employees, International Local and mine employees, Rink Committee for giving rink for carnival, Mrs. Dutil, Mrs. McBurney, Mr. Ommette, Mr. Liddle and Western Canada Co-op, for donating prizes for carnival; to the members of Blairmore and Coleman L.O.O.F. for hockey match; to Mr. Ouimet for providing boxes for shipments and taking same to station; and to citizens generally for their splendid support during the year.

The following shipments were sent to the central Red Cross depot at Calgary: 20 knitted scarfs, 60 "T" bandages, 48 pairs knitted socks, 47 operation stockings, 24 pairs bed socks, 60 P.P. Bags, 14 pairs pyjamas, 12 m.t. handbags.

The following goods were received at the Coleman emergency hospital from the provincial Red Cross depot at Calgary during the influenza epidemic: 10 dozen sheets, 10 dozen pillow slips, 12 dozen towels, 6 dozen men's hospital shirts, 3 dozen women's hospital night dresses, one dozen children's night dresses, one dozen nurses' aprons, 3 dozen large pneumatic jackets, one dozen pairs pyjamas, one dozen mattress covers, 6 children's bed jackets, one dozen large bed jackets, one dozen H. W. B. covers, one dozen B. P. covers, 300 masks.

The members of this society regret that these supplies were not publicly acknowledged at the time they were received.

Audited and found correct.

January 14th, 1920.

M.J. McLeod
E.T. Whiteside.

At the annual meeting of this Society held January 14th, 1920, it was decided to continue this branch of the Canadian Red Cross under the peace-time policy, and the following officers were elected for the year:

President—Mrs. A. McLeod

1st Vice-President—Mrs. White-side

2nd Vice-President—Mrs. Neil

Secretary-Treasurer—Mrs. Rose Dunlop
Mrs. W. G. Hall was added to the executive committee.

Mrs. ROSE M. DUNLOP
Secretary-Treasurer.

Blairmore Triple-Links Install Officers

What was probably the most successful gathering of members in the history of Oddfellowship in The Pass took place at the local Oddfellows' hall on the night of Tuesday, January 13th, when the officers of the Encampment, Rebekahs and Subordinate Lodge were installed.

The officers of Crows' Nest Encampment were installed by Joseph Montalbetti, D.D.G.P., assisted by several past chief patriarchs, at 7 o'clock, as follows:

Chief Patriarch—F. Zilli
High Priest—I. Stephenson
Senior Warden—W. Patterson
Junior Warden—James Crowder

R. Scribe—E. L. Eckmier
Treasurer—J. Montalbetti
Outside S.—J. B. Harmer

Inside S.—A. Morency
First, Second and Third
Watchmen—J. McPhail, R.C. Green
and H. Jepson

J.B. Harmer, P.C.P., was elected representative to Grand Encampment.

The officers of Crowfoot Rebekah Lodge were installed at 8 o'clock by Past Noble Grand, Sister Thompson, of Coleman, assisted by a number of P.N.G.'s. The new officers are:

Noble Grand—Mrs. F.H. Rhodes
Vice-Grand—Mrs. H.J. Benson
R. Secretary—Miss H. Archer
F. Secretary—Miss Elizabeth Fair
Treasurer—Miss Mary Pearson

Warden—Mrs. E. Dimick
Conductor—Mrs. D. Walker
Outside G.—Joseph Montalbetti
Inside G.—R.C. Green

R.S.N.G.—Mrs. M. Joyce
L.S.N.G.—Mrs. James Crowder
R.S.V.G.—Mrs. W.D. Evans
L.S.V.G.—Mrs. J. Patterson
Chaplain—Mrs. J. McPhail

The officers of the subordinate lodges were installed at 9:30 by Albert Hallsworth, P.G., D.D.G.M., of Bellevue, assisted by a staff of past grandees of Coleman, Bellevue and Blairmore lodges, as follows:

J.P.G.—I.S. Stephenson
Noble Grand—Gwilym Evans
Vice-Grand—James Crowder
and F.—J.B. Harmer

Warden—I.W. Evans
Conductor—E.E. Eckmier
Outside G.—Harold Finlay
Inside G.—Peter Montalbetti

R.S.N.G.—John Patterson
L.S.N.G.—Robert Patterson
R.S.V.G.—William Patterson

L.S.V.G.—Dwight Emms
R.S.S.—Fred Grenier
L.S.S.—Marshall Hamilton
Chaplain—H.J. Benson

H.J. Benson, P.G., was elected representative to Grand Lodge.

Following the installation ceremony, tables were spread and a bountiful supply of good things presented themselves for the satisfaction of one's inner self. When full justice had been done the good things provided, a programme of toasts, interspersed with music by Anderson's famous jazz orchestra and the Oddfellows' "settlers" was carried out under the charge of Mr. W. H. Chappell, P.G. The most notable feature of the program was the silent toast to our honored dead, proposed in an able manner by Mr. R.W.H. Pinkney. In response to this toast the audience rose and stood in silence with bowed heads for thirty seconds. Other addresses dealt with subjects of interest, and, peculiar to Oddfellowship.

Judging from the attendance and spirit manifested by this gathering, it seems that Oddfellowship has taken on a new lease of life, and the members of all branches of the Order are not backward in expressing themselves optimistically towards the future. The past year has been one of the most successful

Peace and Its Obligations

With the formal exchange of ratifications of the Peace Treaty of Versailles by Germany and the great powers, with the exception of the United States, and many of the lesser powers, the Great War came to an official and legal end on Saturday, January 10, 1920, and peace in an international sense once more prevails in a world distracted by war for over five years.

This exchange of ratifications, and the official promulgation of peace, might have been accomplished much sooner but for the dastardly act of the Germans in sinking their surrendered fleet at Scapa Flow during the progress of the peace negotiations. As a result of that outrage, the Allies insisted upon a protocol to the Peace Treaty, and this protocol Germany was compelled to sign on January 10, before the exchange of ratifications took place.

Peace is now an accomplished fact, and with the coming into effect of the Treaty of Versailles the League of Nations also becomes an established organization. It is no longer merely a committee, a document of principles, outlining certain machinery for the preservation of the peace now proclaimed. It is a body officially recognized by most of the nations of the world, an organization in which the nations have membership, and to the carrying out of whose aims and objects they are pledged.

For the time being Germany and the other nations which were in alliance with Germany in the war are not admitted to membership in the League. They must first prove their sincerity and honesty of purpose in carrying out the objects of the League. Then and only then will they be admitted to full membership. The United States is not a member as yet, because, owing to political differences in that country, which are acute because of the approaching presidential election, the senate has not yet ratified the Peace Treaty with its League of Nations covenant. It is inconceivable, however, that the United States will not accept the League of Nations and join the League. Such a visual would be a denial of everything for which the American people went to war.

Included in the covenant of the League of Nations is the new international labor organization, which aims at the establishment of a new and better order of things for industrial workers throughout the world. Not only is the League an established fact, but it has already held its first meeting at Paris and taken steps for the efficient administration of the many complex problems entrusted to its care, and in the solution of which alone will be found a guarantee of permanent peace.

But while international peace has been again established, a gigantic task still confronts all nations in the bringing about of domestic peace and wholehearted co-operation among the peoples of their respective countries. The Great War created such a world upheaval, and resulted in such a loosening and breaking away from the foundations and accepted conceptions of the past, largely destroying

old political ties and changing economic conditions everywhere, that men today are more or less unsettled in their ideas. It is a time when great leaders, men of conviction and courage, are needed, and when all people require to exercise a large degree of patience and a high and lofty patriotism.

In the turmoil, suffering and sorrow of the Great War mankind hopes that many of the old abuses and evils of the past have been destroyed; that all the destruction that took place was not bad, but that much of it will prove to have been good. On the other hand, mankind also hopes that because of the sacrifices made, the sufferings borne, the patriotism and heroism displayed, there will emerge a nobler conception of man's duty to his fellowmen, a higher standard in religion, in intellectual attainment, in social relations, in community life and service.

In this new peace era—in this dawning of the twentieth century of a changed epoch in the world's history—the people of all nations should throw their backs on the past, and forgetting those things which are behind, press onward with faces alight and eager hands to grasp the more glorious things that lie ahead. The old ignominious strife—in party politics, the cruelty and oppression and ruthlessness in business competition, between Capital and Labor, between the classes and the masses, should be superseded by a new spirit and a ready willingness to co-operate, one with the other for the good of all. We have undergone all the sufferings, the horrors, the losses of the Great War. We have borne up and worked together with a national determination to achieve victory for the right. We have accepted our losses in a splendid spirit. Now, in the interests of all and of our common country which by our efforts we have saved from enemy desolation, let us remain united, united more firmly than ever, in cordial co-operation to bring out of the Great Sorrow the maximum of blessing to all.

"Which has the harder life, coffee or tea?"
"Tea; for while coffee can settle down tea is compelled to draw."

ARE YOU WEAK AND RUN DOWN?

In This Condition Only a Toxic Medicine Can Renew Your Health.

The condition of being "run down" is one that doctors do not recognize as a disease, but a condition in which one's health is failing. In a hospital where only severe disorders are encountered know little about it. But those who are run down find that they are in a fancied affliction.

The expression "run down," applied to health means a condition in which all the bodily functions are enfeebled. Appetite is the biggest factor, the nerves are impoverished, the complexion becomes pale or waxy, there is no animation, but rather worry and mental depression. Feeling of weariness is typical. No particular organ being affected, you must look for relief to the blood. As it circulates through every part of the body, any improvement in the body's condition is reflected in the blood throughout the entire system. As a restorer of the blood and builder of weak nerves Dr. Williams' Pink Pills stand at the head of all toxic medicines. Each dose of these pills helps to quicken the blood, strengthens the nerves, and thus the various organs regain their tone and the body recovers its full vigor. Apple proof of this is the case of Mr. William Devine Gerard street east, Toronto, who says: "Two years ago while employed as a conductor on the Toronto Street Railway I became ill. I was constantly growing weaker and weaker. My appetite completely failed and I fell to 125 pounds. I was sometimes taken with fainting spells, and finally felt compelled to resign my position. I tried what I thought was right, but was still getting worse. Finally I had to give up my job. Finally I bought me a box of the pills, and could no longer refuse to try them. After a time I felt they were helping me, and gradually continued to use them, with great results. I am enabled to go back to my old position, fully restored to health, and now I am doing well again." Dr. Williams' Pink Pills, and can strongly recommend them to any one suffering as I do.

Dr. Williams' Pink Pills can be obtained through any medicine dealer, or may be had by mail, post paid, at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Gone State.

Remember how the men in the theatre used to rush out for a breath of fresh air?

"Yes. What of it?"

"The fresh air is still there, isn't it?"

"I dunno. Why?"

"It doesn't seem worth going after any more."—Louisville Courier-Journal.

Had It In Mind.

Papa (from the next room): "Eh, aren't you ready to light the gas in there?"

Eh! "Yes, papa; we are just about to go to bed."—Striking a match.—Pearson's Weekly.

Your Wife Bad Tempered?

Chances are she has tons thatache like fury. Buy her a bottle of Putnam's Cat's Extract. It acts painlessly, gives instant relief to every kind of corn. Insist on getting only Putnam's Extractor, 25c, at all dealers.

Elephants Good Workers

Drivers Have Special Language Which the Animals Understand.

Elephants do their best work in driving timber, working it with the current, releasing logs from jams and rolling the stranded logs back into the water. The elephant drivers have a special "elephant" language which the animals understand—a special elephant vocabulary with such terms as "Push sideways," "Roll," "Pull out," "Stop," "Lift your chains." They are magnificent swimmers. When they swim from bank to bank, herding the logs that require their special attention, you see nothing of them except the tips of their trunks through which they breathe, and the mahouts, or drivers, who are generally in water up to their waists. If a big stack of jam breaks suddenly where elephants are working, they know the danger of being overtaken. They trumpet and clear off to either bank of a swift downstream as fast as they can go.

W. N. U. 1299

Using the Earth's

Hot Water

Steaming Water That Would Be Sub-scient to Heat Every Building In Large Town

People in the western part of America, who have to buy coal and oil for heating at constantly higher prices, naturally look somewhat longingly at the great hot springs in their vicinities. These hot springs appear in a broad valley stretching diagonally across several states from one place in the meadows above the Yosemitic, through Nevada, and taking in the Yellowstone Park in Wyoming.

The great Comstock mines at Virginia City, Nevada, have always been very hot, and even today the lower levels are filled with steaming water that would be sufficient to heat every building in a town of considerable size, if engineering ingenuity could devise the way to carry it to the near-by towns. Water boiling, bubbling, and bursting to the surface, in miniature craters and geysers, is one of the curiosities of the western states.

Even today a number of farmhouses have running hot water, and some few are heated, from this underground supply.—Christian Science Monitor.

Minard's Liniment Cures Diphtheria.

German Prisoners on Farms

British Farmers Were Well Satisfied With Their Work.

German prisoners of war are now being repatriated. Over 200 of the agricultural camps have been closed and the German contribution to British farm labor may be considered at an end. War prisoners were first employed in agricultural work early in 1917, the allocation of their labor, in the hands of the country war agricultural committees. The total number of prisoners allotted to agricultural work varied slightly from time to time. In January, 1919, over 30,000 men were employed, and by August, 1920, over 25,000. Farmers did not welcome the newcomers at first, but as time went on, they were well satisfied with their work. Land drainage and the clearing of rivers engaged the attention of a considerable number of prisoners and during the harvest of the passing year their help did much to meet difficulties that had arisen in many counties owing to the withdrawal of the men in agricultural camps.

Good things may be cheap, but cheap things are seldom good.

WHEN YOU SUFFER FROM RHEUMATISM

Almost any man will tell you that Sloan's Liniment means relief.

For practically every man has used it who has suffered from rheumatic aches, soreness of muscles, stiffness of joints, the results of weather exposure.

Women, too, by the hundreds of thousands, use it for relieving neuralgia, backaches, rheumatism, sciatica, neuralgia, gouty affections. Say "Sloan's Liniment" to your druggist. Get it today. 35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment Keep it handy

The Servile State

Bolshevists Developing a State Which Has No Precedent in History

Bolshevism is steadily developing a new kind of organized state, which has no precedent in history, and which shows evidence of "brain and efficiency." It is a development toward a "servile state," which will have absolute control of industry as well as of government, laying down a rigid and ruthless code for both alike. The Westminster Gazette remarks that the Bolsheviks of Russia do a great many things "which ought to warn the hearts of old Tories" in Great Britain. They forbid strikes; they require a minimum output from every worker on pain of starvation; they prescribe the hours of work, and lengthen them; or, curtail them, at their pleasure; they exact compulsory military service and organize it on industrial lines. The Bolsheviks, whatever it was in theory, has acquired a control over the people which is beyond the power of any government, despotic or democratic, in any other part of the world."—From the Toronto Globe.

The summer girl doesn't appreciate the mountain scenery unless there is a man in it.

Lots of women do foolish things so they can snub those who don't.

Canadian Army Back in Civil Life

Over Three Hundred Thousand Into Civilian Occupations Since the War

Since the armistice, 272,537 officers and men have been repatriated from overseas. Prior to the armistice, 65,600 officers and men had been returned to Canada and demobilized. This is a total of 338,000 members of the Canadian expeditionary force who have been turned back into civilian occupations. It does not include the large force of men who were enrolled in the armed forces but did not get overseas prior to the armistice day.

Of the 338,000 returned officers and men, 44,728 have applied to the Soldier Settlement Board for qualification certificates, to enable them to take up land and secure the benefits of the soldier settlement act. The number of applications approved at the close of the year was 33,496.

The district offices of the board, especially in the western provinces, have been busy answering inquiries and taking care of the steady stream of ex-service men who are looking for suitable land and making the necessary preparations to apply for loans. A great rush is expected in the early spring, when several Indian and forest reserves will be opened for entry.

Woman is a subject never mentioned in Morocco. It would be a terrible breach of etiquette to ask a man after his wife or wives.

Another Epidemic OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many dead. In view of the smallpox and influenza which were left over a great many cases with some serious after-effect, such as weak heart, shattered nerves, etc., and loss of blood and a general weakened and exhausted condition of the system.

If you are run down, heart not right, nerves a little shaky, take a bottle of Milburn's Heart and Nerve Pills and fortify the system against this terrible plague.

If you are ill, the "flu" and all the other ills of modern civilization, take a bottle of Milburn's Heart and Nerve Pills and bring you back to health and strength.

Mr. G. Palmer Keeler, State Health Officer, "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken many different kinds. I will always keep Heart and Nerve Pills in the house."

Price 50c a box at all dealers or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

The Jutland Battle.

Surgeon Rear-Admiral Sir Robert Hill has given, for the first time, statistics of the casualties at Jutland. These amounted to 6,014 killed and 674 wounded. The total strength of the Grand Fleet he gives as 60,000, that the casualties amount to 11 per cent, and the killed to 10 per cent. The vast preponderance of killed over wounded gives us some idea of the utter destructiveness of modern naval warfare. It is not entirely due to the loss of practically the whole of a ship's complement if that vessel is sunk. The Lion, which was heavily engaged, but not sunk, had ninety-five killed and fifty-one wounded. Nearly every injury would be sustained from the most colossal projectiles yet devised by man.

CUTICURA HEALS BABY'S FACE Could Not Sleep Eruption Itched and Burned So.

"I noticed a little pimple on my baby's face. I thought it was from the sun but it kept getting worse and the skin was red and swollen. He couldn't sleep at night and it burned and burned so, and it caused him to scratch. I was quite disengaged."

"I sent an advertisement for Cuticura Soap and Ointment and sent for a free sample. I bought more and after using two cakes of Cuticura Soap and Ointment he was healed." (Signed) Mrs. S. D. McGuire, Clarkburg, Ont., Dec. 18, 1918.

Appendicitis Prevented Life Lengthened Health Maintained

Thousands Finding Wonderful Benefit in a Simple Home Remedy That Costs But a Quarter.

Doctors say if people kept their bowels in proper order there would be no such disease on record as appendicitis. It is a pity to neglect any disease.

If you have constipation, bad breath or headache you need medicine right away.

A moment you suspect your bowels are clogged you should take Dr. Hamilton's Pills, the smoothest regulator of them all. They move the bowels and cleanse the liver, too. "Yes," said Conward, "we can agree that the boom is over. Booms feed upon themselves, and eventually they eat themselves up. We have done our best on paper, but we have to cover it with paper to cash."

Dave turned about. "You know I don't claim to be any great moralist," Conward said, "but I have no time for the likes of you. You're always in and gets stung. Consequently I am not troubled with any self-pity, nor any pity for you. And if you can get rid of our holdings to other people, we'll be better off."

"If business can get the action just the same. Taken at night you wake up next morning, clear-headed, hungry, rested, energetic, feeling like a different person."

Why don't you spend a quarter today and try Dr. Hamilton's Pills. They work so easy, just as nature works in order to achieve a pain-free life. You can get the action that are out of sorts, depressed, lacking in color and spirits.

Folks that use Dr. Hamilton's Pills are sick, not because they lack a pain-free life, but the time simpler because their system is clean, regulated and healthy. This you can easily prove yourself.

THE COW PUNCHER

BY ROBERT J. STEAD

Copyrighted, 1915, By The Museum Book Co., Ltd., Toronto. Printed by Special Arrangement.

(Continued.)

A fire was burning in the grate. Dave walked to it, and slowly unrolled the sheet, the agreement and the cheque into the flame. For a moment the printed letters stood out after the body of the paper was consumed, but all that was ashes.

"Well, if that doesn't heat 'em!" Mrs. Hardy ejaculated. "All are cow-punchers so disconnected."

"And I hope you will let me say now what I should have said before, that it was with the deepest regret that I accepted your command to attend the death of Dr. Hardy. He was a gentleman who commanded my respect, as he must have commanded the respect of every known man. Well, the sales had been sold out. I assure you I have only sought to serve Dr. Hardy's widow and his daughter."

"It is a peculiar service," she said. "Her feelings are hurt. She feels she had a grievance against Dave. He had not lived down to her conception of what a raw Western youth should be."

Even though she accepted the agreement and the cheque, dramatic though it was, had a poise to it that seemed inappropriate. Dave should have been better off if the partners had fought over them — he should have brought them in range and consigned them to the flames. Dr. Hardy should have been running true to form. His assumption of the manners of a gentleman annoyed her exceedingly.

I only thought of the partners' honour," said Conward. "I need not, however, affect the transaction in the slightest degree. A new agreement in which I am a partner in the firm in which I am a partner will not be concerned." "That will be more satisfactory," said Mrs. Hardy. She intended the remark for Dave, but it was as though she was conversing in low tones with Irene.

"I am sorry I had to make your mother an acquaintance under circumstances which, I fear, she will not even try to understand," he had said to Irene. "I am sure she will not be pleased with me."

"Oh, Doctor Mr. Eiden, I mean — that is — you don't know how proud — you don't know how much of a man you made me feel you are! She is good and kind, and — perhaps she shouldn't talk like this. Perhaps —"

"It all depends on one thing," Dave interrupted.

"What is that?"

"It all depends on whether we are Miss Hardy and Mr. Eiden, or whether we are still Irene and Dave."

Her bright eyes had fallen to the floor, and he could see the tremor of her fingers as they rested on the back of a chair. She did not answer him directly. But in a moment she spoke.

"What will buy the house from Mr. Conward?" Irene asked. "I like that. And when we are settled you will come and see me, won't you — Dave?"

CHAPTER FOURTEEN.
When the Hardys had gone, Conward had been left standing where they stand, trying to speak dispassionately, but there was a tremor in his voice.

"I agree," returned Eiden, who had no desire to evade the issue. "Do you

consider it fair to select inexperienced women for your visitors?"

Conward made a deprecating gesture. "There is nothing to be gained by quarreling, Dave," he said. "Let us leave it to the fairies. Let us leave the facts. When we have agreed as to acts, then we may agree as to procedure."

said Dave. He stood with his shoulders toward Conward, watching the dusk settling about the foot-hill city. The streets led away into the gathering darkness, and the square brick houses stood in a row, mounted against a champaign sky.

He became conscious of a strange yearning for this young metropolis; a sort of sentimental brooding over a place he had long ago left behind him. It was his city; no one could claim it more than he. And it was a good city to look upon, and to mingle in, and to dream of. "Come along with me," said Conward, "we can agree that the boom is over. Booms feed upon themselves, and eventually they eat themselves up. We have done our best on paper, but we have to cover it with paper to cash."

Dave turned about. "You know I don't claim to be any great moralist," Conward said, "but I have no time for the likes of you. You're always in and gets stung. Consequently I am not troubled with any self-pity, nor any pity for you. And if you can get rid of our holdings to other people, we'll be better off."

"If business can get the action just the same. Taken at night you wake up next morning, clear-headed, hungry, rested, energetic, feeling like a different person."

Why don't you spend a quarter today and try Dr. Hamilton's Pills. They work so easy, just as nature works in order to achieve a pain-free life. You can get the action that are out of sorts, depressed, lacking in color and spirits.

Folks that use Dr. Hamilton's Pills are sick, not because they lack a pain-free life, but the time simpler because their system is clean, regulated and healthy. This you can easily prove yourself.

City Markets and The Cost of Living

Cuts Down Cost of Handling and Eliminates Middlemen.

The operation of city produce markets is regarded as having a close bearing on the cost of living in the towns and cities. With a view evidently of bringing out the best systems of conducting city markets, The Agricultural Gazette of Canada, published by the department of agriculture at Ottawa, has brought together, in the December number, the systems by which markets are handled in eighteen of the larger cities in Canada. The statements provided by city mayors, city clerks and superintendents of markets show clearly that there does not exist in Canada any uniform system of city market administration. Each city has its own special rules and regulations. In some instances the market is subject to a sort of publican who buys from the city the privilege to collect tolls or fees from those who bring produce to the market. In other cases, as in Regina, we find a woman's organization efficiently managing the city market, while in others, as in Vancouver, the markets are directly managed by a committee appointed by the city council. The Hamilton board of trade has established a wholesale relationship between its urban and rural peoples by creating a farmers' section of the board. The friendly co-operation and exchange of views between the two sections result in a better understanding of conditions, consequently the Hamilton market is highly esteemed by growers and buyers. It serves the interest of both. Special features adopted by various market administrators are giving excellent results, for example, the system adopted at Port Arthur for the selling of consignments of produce by the market manager on a commission basis. Besides securing to the purchaser fresh supplies of food at a cost, usually below the prices charged in the stores, these markets bring to the producer considerably higher prices than if the produce were compelled to pass through several hands each taking their necessary toll.

Canada's Rich Hinterland

The Barren Lands of the North Are Made Productive.

Fresh proof of the farming possibilities of the Peace River and Great Slave Lake regions is furnished by travellers who have recently visited the Peace and Grand Prairie territory a considerable settlement has been made and enough land was under cultivation last season to yield 5,000,000 bushels of grain. Beyond this there stretches the valley of the Mackenzie River with soil as fertile, indeed practically the same as the alluvial loan of the prairies to the south. Wheat ripens at Fort Providence, above Great Slave Lake and barley at Fort Norman in latitude 65. It is not claimed that these grains will ever be extensively grown at such high latitudes. When it is considered, however, that potatoes and other vegetables will also thrive the chances for farming are encouraging. The population that will be attracted by the discovery of minerals and by the timber will create a local demand for lands. The so-called barren lands lying further east are described as promising pasture grounds for thousands of reindeer. The return per acre from live stock or grain cannot compare with what is obtainable further south where the season of growth is longer and settlement will be slow. Yet the old notion of barren northern wastes must in time be modified as the natural resources are developed. — Montreal Family Herald.

DANDERINE" PUTS BEAUTY IN HAIR

Girls! A mass of long, thick, gleamy tresses

Let "Danderine" save your hair and don't let it be ugly. You can have lots of long, thick, strong hair again. Don't let it stay lifeless, thin, straggly or fading. Bring back its color, vigor and vitality.

Get the secret of "Danderine" at any drug-store or toilet counter to freshen your scalp, check dandruff and falling hair. Your hair needs this stimulating tonic; then its life, color, brightness and abundance will return — Hurry!

"Rufus, aren't you feeling well?"
"No, Sab, I'm not feelin' very well, sah."
"Have you consulted your doctor, Rufus?"
"No, sah, I ain't don' dat, sah."
"Why? Aren't you willing to trust your doctor, Rufus?"
"Oh, yes, sah. But de trouble is he's not so al'gert willin' to 'trust' me, sah." — Vankers Statesman.

Common sense is none too common.

Watching Immigrants

Federal Authorities Scrutinizing Entries for Possible Reds.

Immigration authorities at Ottawa, while admitting that the hunted "Reds" of the United States will endeavor to secure sanctuary in Canada, point out that the immigration laws of Canada are very strictly opposed to the entrance of undesirables, that immigration officers all along the border are on the alert to keep them out and that in addition the mounted police cordon is now spread from the Pacific through the prairie provinces down toward Rainy river and Thunder bay. As a matter of fact, several intending entrants already have been held back on suspicion; others may be held pending investigation and a clean bill is being demanded of all would-be immigrants.

"My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pill.

The kidney is no time for delay when the kidneys go wrong, for such development as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers or Edmundson, Bates & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

According to an official census of the dairy industry taken in 1917, the total number of creameries and factories in operation in Canada is 3,418, including 949 creameries, 1,900 cheese factories, 549 combined factories producing both butter and cheese, and 20 condensed milk factories. The total number of patrons is 248,683. The province of Quebec led in creameries and was a close second to Ontario in cheese factories.

Wouldn't He.

"Do you want a smart boy, sir?"

"No! I do all the work myself."

"That's just the kind of place I'd like, sir." — Boston Transcript.

BOVRIL

Use Bovril in your cooking. It flavours, enriches, nourishes more.

The Body-building Power of Bovril has been tested and proved. It is from 10 to 20 times the amount of Bovril taken.

Wonderful Persian Shawl.

The Metropolitan Museum of New York has a rare Persian shawl, said to be 165 years old. The shawl is 11 by 4 ft., worked in long flowing designs of the palm-leaf and the River of Life with the stories of the Mosqués. The predominating colors are mellowed garnets and brown, with alternating shawls of steel green and rusty brown. An expert whom the shawl was shown, said its make-up probably represented the lifetime of the weavers.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only — look for the name California on the package, there are sure to be 1000 in the box. It is the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's use on each bottle. Give it without fear. Mother! You just say "California."

Alberta Hogs Make Good

Canadian Bred Swine Found Superior to Imported Stock.

The high merit of the class of live stock being produced in Western Canada today is evidenced by the following incident related by Mr. William Gilbert of Stony Plain, a small town situated in the centre of the rich mixed farming districts of Central Alberta.

Two years ago Mr. Gilbert sold a yearling Berkshire boar to a farmer in Saskatchewan. The brother of this farmer, a large swine raiser in Nebraska, visiting him shortly afterwards, saw the boar and was so impressed with him that he was very anxious to purchase him to head his own large American herd. This he succeeded in doing, and after using the boar for two years he now writes Mr. Gilbert ordering forty young sows as the demand for the progeny of his Gilbert boar is so great that he is unable to fill half of his orders. While Mr. Gilbert imported his two herd boars from the States and is importing other stock from time to time he finds that the first cross on the Canadian bred sow gives swine even superior to the imported progenitors, especially in size, bone, length, soundness and also in the size of litters. Swine breeders recognize these as very important points.

Current loans in Canada total \$6,000,000, compared with \$1,000,000 in 1913. This substantial sum will indicate that the Union Bank of Canada is doing its part toward meeting increased demands for loans from the Canadian public.

The Union Bank of Canada's position in the financial world is unique. It is the only bank in Canada that has not been compelled to increase its capital stock during the war period. The Union Bank of Canada is doing its part toward meeting increased demands for loans from the Canadian public.

During 1919 the branch bank system was expanded to a total of 390 branches, 89 being opened in the year. The Union Bank of Canada is moving forward to make comfortable the establishment of the returned soldier.

236 members of the staff enlisted for overseas service; 123 passed the medical examination. 150 have not reported for duty, but 683 have been absorbed into

Notable Further Progress of The Union Bank of Canada

Assets Built Up To \$175,000,000 and \$2,000,000 Added To Reserve Fund — The Bank's Position Stronger in Its History.—1425 New Shareholders.

General Manager has remained the strongest support in the Union Bank of Canada's History.

The Bank again. Each of these returned officers has been re-instated at an increased salary.

The President, Mr. John Galt, and General Manager, Mr. H. B. Shaw, made a strong plea for national and individual third base loans to the armament industries. The Union Bank is holding huge war debts.

"Trade conditions in Canada are good," said Mr. Galt. "We are getting high prices for our products. It is a time, however, when we should be careful in our investments. The war debt is a heavy load on the Canadian public. The Union Bank of Canada is doing its part toward meeting increased demands for loans from the Canadian public.

CHURCH CORNER

Union Church Services

Rev. W. T. Young will take as his subject for Sunday evening's discourse "Weaknesses & Fire Revals."

Wednesday evening—Prayer meeting at 8 o'clock.

ASSOCIATED ACTIVITIES

Sunday school at 2 o'clock. We will welcome children who are not now attending any Sunday school, but we do not want those who are already members of a Sunday school in town.

W. T. YOUNG, Pastor.

(Continued from Front page) in the history of all Pass lodges, and efforts will be made to make the year 1920 spell the banner period in their history. Some of the lodges were hard hit by the war, and a fairly large percentage of those who enlisted for service overseas now sleep beneath the sod "Over There."

Following the programme, dancing was indulged in for several hours, bringing the big evening's programme to a fitting close.

Of about one hundred and fifty present, about seventy came from Bellevue and Coleman, and representatives of both these lodges extended hearty invitations to the members of Blairmore lodges to pay them a return visit in the near future.

Fifteen buildings are to be erected throughout the province for the provincial police force.

We are obliged through crowded space to again hold examinations for grades IX and X.

No one will be admitted to the Burns' entertainment in the Odd fellows hall on Monday night without a ticket.

Strictly Fresh Ranch Eggs!

To Perpetuate Memory of Late Lieutenant Hinds

At a well attended meeting of the Veterans of Foreign Wars, of Washington County, held recently, an organization was formed which in the future will be known as the Frank Hinds Post. The post was named after Frank Hinds, a former Stillwater boy, who served with Company K in the Philippines. He also served in the recent war against Germany as a member of the famous "Panzers," the regiment which conducted troops, having originated from Blairmore, with the 92nd Battalion, and was killed in action in the famous charge made by the Pans in the great battle of Vimy Ridge.

The meeting was attended by about forty veterans of the war with Spain, Phillipine Insurrection, and with Germany; while several G.A.R. vets of the civil war were also in attendance.

Resolutions thanking the press for publicity given to forming the new organization were passed. Resolutions were also passed thanking the mayor and members of the city council for use of the city hall.—Ex.

Final Reception For Returned Veterans

At a meeting of the Returned Soldiers Bureau, held in the town hall last night, it was decided to arrange for a grand final reception to returned veterans of Blairmore.

The meeting was presided over by President Gillis, and beside the original members of the Bureau, was attended by a number of veterans.

The minutes of previous meetings were approved as read.

The chairman announced that this would probably be the last meeting of the local bureau, with the close of the war and the return home of practically all veterans who enlisted from the community, the activities of the Bureau had naturally ceased. It was reported that funds to the extent of about \$40 remained to the Bureau's credit at the bank, and that it was the Bureau's intention to grant one final reception and recognition of the services our boys had rendered overseas as soon as it was found that all had returned. That time had now arrived, and it was the feeling of the meeting that an opportunity presented itself when a proper and fitting tribute should be paid our returned heroes with the undivided support of every citizen. A motion was unanimously supported that such a function be held at the local opera house on the evening of Thursday, January the 29th, at 8 p.m., when a formal reception and presentation of certificates on behalf of the Town to all veterans will take place, to be followed by a supper, games and dance. It was decided that the affair be supported by all outside of the veterans and their lady friends by an admission fee of \$1.00 for gentlemen and 50 cents for extra ladies, and that contributions in the way of catables would be acceptable.

Refreshment Committee appointed—Mrs. Wright, Mrs. Carter, Mrs. Howe, Mr. Thorpe and Mr. R. Harrison.
Advertising Committee—Mr. G. Smith and W. J. Bartlett.
Programme Committee—J. E. Gillis, F. Wright, W. J. Fisher, J. Evans and J. M. Carter.
An invitation will be extended to the staff and patients of the Frank Sanatorium and to local clergy.

Death of J. E. Poupre

A Vancouver paper contains the announcement of the death of James Edward Poupre, aged sixty-six years, which occurred in his family residence in that city on December the 18th. He is survived by a bereaved widow and two sons, William E., of Vancouver, and Albert G., residing in Toronto. Mr. Poupre and family once resided in Frank, and may be remembered by some of the real old timers of this district.

Institutional Church Holds Annual Meeting

The annual congregational meeting of the Institutional Church, Coleman, was held on Monday evening, January the 10th. There was solicited attendance and very good participation in various ways submitted. Rev. Dr. E. K. Allister, presided. The financial statement showed increased liberality. The mission store net for the year and a half amounted to \$1000 remains in the bank. The

missionary giving of the congregation and Sunday school amounted to over \$100. The Women's Missionary Society reported increased interest and the Ladies' Auxiliary had a most encouraging year, having raised \$170. The organizations of the congregation are all in fine shape.

The Sunday school is well equipped; the attendance has been very good and the expenses have been kept down.

The ladies served refreshments after the business of the meeting was over.

The business of the meeting was over.

Blairmore Has \$18,000 Fire

Fire, which broke out at the rear of Trono's jewelry store at about 1 o'clock on Tuesday morning, did damage to the extent of about eighteen thousand dollars, totally destroying the jewelry store and the adjoining store of the Italian Belgian Co-Operative Society, with all contents.

With the temperature hovering around 25 below, the fire brigade had a most difficult task to encounter, but they stuck to their post, and although for a time it was feared that there was no hope of suppressing the flames, the fire was confined to the two buildings.

Trono's loss of stock and building is estimated at \$8,000, including repair costs, and the congregation enter upon another year with the continued desire to be of service to God and man.

Steve Novak and was occupied

in a general store by the Italian Belgian Co-operative Society.

Damage to stock and building would reach fully \$9,000, on which we learn there was but part insurance. Trono's stock was also partly covered by insurance.

Fortunately there was no wind, or the fire would have gained far greater proportions.

Red Cross Annual Meeting

The regular meeting of the Blairmore Red Cross Society will be held in the Mission Hall on Wednesday afternoon, January 28, at 3 o'clock.

This meeting was held over at the request of the Provincial Branch, until this time, in order that members could hear the reports from the convention held in Calgary in December.

You are asked to decide on a programme for peace times, and a full attendance is requested.

Paul Deschanel has been elected president of France.

Inter-Church Forward Movement Convention

There will be an inter-church forward movement convention at Macleod on Tuesday, January 27th, at which it is hoped every church in the district will be represented. The programme for the day will include: intercession at 2 p.m.; address on "Foreign Aspects of the Appeal" by the Rev. Dr. Ginn, of Japan; a 3 o'clock address at 3:30 by Rev. (Capt.) Caswell, of Toronto; denominational rallies at 4; devotional service at 8, conducted by Miss Fair; address on "The World's Challenge to Christianity" by the Venerable Archdeacon Hayes, of Calgary at 8:15, and address on "National Aspects of the Appeal" by the Rev. Dr. McLean at 8:45.

In eight months of 1919 over 91,000 immigrants from Great Britain and the United States came into Canada.

Community Service

THAT is what the ENTERPRISE stands for. We intend to be of service to everyone located in the Crows' Nest Pass.

We are endeavoring to get correspondents and aim at fuller local news reports, while eliminating anything approaching scandal or personal unpleasantness. It is our desire to make the ENTERPRISE one of the best local weeklies in Alberta.

A Newspaper performs a vital service to a community. It binds the scattered threads together and assists community developments socially and commercially. You can do your part to assist us in our aims. If a workman your subscription helps, if a business man your advertising and job printing.

Advertisers and subscribers will benefit directly and indirectly, to far more than it costs them by linking up with the ENTERPRISE.

Are You With Us?

The Blairmore Enterprise

Big Auto Tour is Being Arranged For Next Summer

One of the biggest automobile tours in the history of Canada is now being planned to start from Winnipeg the first Sunday in June. This will include cars from different parts of Canada and the central States and is to be known as the Canadian-American First Annual Tour to the Canadian Rockies.

The object of this tour is to awaken in the western country a greater interest in the Good Roads Movement and to induce motorists to visit the beauties of the Canadian west and spend the sum-

mer in the mountains. This automobile run will be made from Winnipeg through Brandon, Regina, Moose Jaw, Swift Current, Medicine Hat, Lethbridge, Calgary and end at Lake Louise. Invitations are being sent out to all the auto clubs and other motor organizations in the States and from information already received by the Dominion Trail Association, who are promoting the tour, there will be a large representation from across the line.

Although there are several months separating the start from the proposed tour, plans are already being laid to establish a large contingent of motorists to take part. It means a great deal to western Canada and an important step toward the development of good roads and spreading of interest in this part of the country.

Many of the most prominent writers in the States, Sinclair Lewis of Philadelphia, the good roads authority, and Irvin S. Cobb of international fame as a writer, are being invited to make the trip, and the publicity which this run will give the west will eclipse anything in the annals of the Dominion Trail. Several newspaper men of western Canada will also be included in the party and a detailed report of the trip will be given out each day, and different cities and towns along the route will prepare to receive the visitors, at the same time grasping the opportunity to gain further publicity.

The routes in each district on

possible repair for the tourists. This will be a big boost for the districts, for the old saying "Good roads lead to good towns" is familiar to everyone, and there will be a general movement toward improving the highways for the travellers. This will not be done with the intention of providing comfort for a lot of joy-seeking tourists, but to advertise the country and impress the visitors.

One of the biggest features of the trip will be the moving pictures. Operators will accompany the party and roll in the film at different points along the route. These films will be shown on the screens of theatres throughout Canada and the United States and it will be the greatest publicity sensation of the west.

Raps The 'Blind Pigs'

Despite the storm, a large crowd attended the Union church on Sunday night last to hear Rev. W. T. Young's discourse on "The Anti-Saloon League of Blairmore Blind Pig Proprietors Towards Morality." He dealt with his subject in no uncertain manner, charging the government with being responsible to a very large extent for the wide-open, deplorable condition that prevails in Blairmore and the public for patronizing the traffic or sitting by and permitting the evil to exist. He stated that he had visited some of the "dens" in this community, where liquor of all kinds was being administered over the bar in a free manner and possibly larger quantities than in the pre-war days, when the traffic was under government license control; and that besides the traffic in booze, which is also extended to those of tender years, an equally great curse was prevalent in gambling dens conducted behind closed doors or away from the eyes of passing public, where boys of school age are being entertained at all hours of the day or night. He pleaded with the congregation and the people of the community to get together and rid The Pass or the community of such evils as exist detrimental to our moral welfare.

To Bring Back Heroic

Canadian Dead From England

Robert Stone, a Toronto undertaker, states that a movement is on foot and arrangements well advanced by an organization known as the Overseas Mortuary Association to bring back the remains of the heroic Canadian dead from England, France and Belgium and bury them in their own country. Mr. Stone says it is a private enterprise, with no government connection.

In view of the increase of 14 per cent granted the miners, dealers throughout the province have been authorized to increase the price of coal by 40 cents a ton.

Louis Bowtie, of Pembina, N.D., who pleaded guilty to the charge of importing liquor from Canada, was sentenced to sixty days in jail. He attempted to run the liquor across the line on child's sled at midnight.

Although the cost of living generally is supposed to have advanced 14 per cent recently, still the retail price of imported booze and locally manufactured moonshine remains the same.

Stimulants were welcomed during the fire on Tuesday morning. One fireman, on hearing a gentleman remark that his thermometer registered 13 below, remarked: "Shure, an' min' registers thirteen below just now!"

Coleman I.O.O.F. Officers Installed

At a well attended meeting of Coleman Lodge No. 36, I.O.O.F., on Monday night the elected officers for the ensuing term were installed by Past Grand Albert Hallsworth, D.D.G.M. of Bellevue. The installing officer was assisted by past grand of Bellevue, Blairmore and Coleman Lodge. The following officers were installed:

Junior Past Grand—T. Thompson
Noble Grand—J. Houghton
Vice Grand—H. Houghton
Recording Secretary—E. Houghton
Financial Secretary—C. D. Rogerson

Treasurer—James Fairhurst. A number of Rebekahs from Bellevue and quite a number of Oddfellows from Bellevue and Blairmore were in attendance.

At the close of the lodge session, refreshments were served by members of Victoria Rebekah Lodge, and dancing and other amusement occupied the time until the small hours of Tuesday morning.

Fifty deaths from "flu" occurred in Chicago last week in forty-eight hours.

Jack Sartoris and family, of Frank, left last week on an extended visit to Italy.

Miss Patterson, of the local telephone exchange, is enjoying a several-weeks' vacation.

The annual meeting of the Blairmore Red Cross Society will be held in the Mission Hall on Wednesday next at 3 p.m.

The theatre management at Carlton refused to allow the Canonniers to play jazz music for a dance.

Dick Randall is spending the week entertaining the mumps. For a few days Dick was fearing a close shave.

We notice that the Vatican has subscribed 20,000,000 lire(s) to the sixth Italian national loan, which is considerably more than Canada ever contained.

Mr. Ralford Brooks, representing the Oddfellows' Loyal Protective Insurance Co. is doing The Pass this week. Mr. Brooks is accompanied by his wife.

Rev. Father Coisman desires, through the Enterprise to thank those who kindly assisted in removing his furniture and effects from the fire danger zone on Tuesday morning, and would be glad if the parties finding a couple of pairs of blankets and several books would return same to him as early as possible.

FOR SALE—Two thousand feet of dry lumber; one door, size 2 5x6-8; window sashes with glass 24x30; 124 square feet of 3-ply roofing; one safe, size 3x4; and quantity of household furniture and effects. See bills for further particulars.—W. G. FRASER, Phone 62, Frank, Alberta.

Fire destroyed the Empire and Grand Central hotels, together with several small stores, at Calgary on Sunday morning. Three men lost their lives in the flames.

Allies May Have To Take Action Against Bolshevik

London. — Before peace with Germany is a week old, the British public has been brought up sharply against the possibility of another war. Winston Spencer Churchill, minister of war, Walter Hume Long, first lord of the admiralty, Baron Beatty, commander of the Grand Fleet, and Field-Marshal Sir Henry Wilson, chief of the imperial staff, have been hurriedly summoned to Paris for a consultation with Premier Lloyd George and other British officials thereon important military and naval matters.

This summons is undoubtedly connected in the public mind with the semi-official statement calling attention of the threatening situation in the middle east, as a result of the Bolshevik military successes which have given the Bolshevik virtual control of whole European Russia, for although it is not yet confirmed that they have entered Odessa, it is believed it cannot be long before they are in full possession of these coast regions.

By their victories, the Bolsheviks have secured command of enormous supplies of food, raw materials, rolling stock and other means of transportation, which they were formerly in need of.

Speculation is active in the capitals of Europe as to what will be the next move of the Bolsheviks. It is regarded as certain that Poland will be invaded, they will not be content with the present conquest but will seek to extend Bolshevikism in the eastward or westward. Expert military opinion inclines to the belief that their next move will be an attack on Poland, and the Baltic states, and Warsaw despatches to the London papers already indicate that the Poles are fully anticipating such a move.

The Soviets now undoubtedly command formidable forces, but not sufficient to warrant an attempt to advance both east and west. Against the likelihood of an attack on Poland, which it is said will be popular with the Red generals, is the fact that the Bolshevik tanks would be exposed on the north to an attack by the Letts and to the south by the Romanians.

Compromise on Treaty Is Now Likely

Bi-Partisan Round Table Conference Ends in Negotiations Being Opened.

Washington. — At a bi-partisan round table conference of senate leaders, formal negotiations toward a compromise on reservations to the peace treaty were inaugurated. While no agreements were reached at the meeting which was participated in by four Republicans and five Democrats, prominent in recent informal negotiations, and which lasted two hours, another meeting will be held Saturday, and in senate circles there was renewed hope of a compromise.

Germans Evacuate Silesia.

Berlin. — The German troops began to evacuate Silesia on Jan. 14.

A Big Slump In Trade With The United States

Winnipeg. — In a despatch from its Ottawa correspondent, the Telegram says:

"The feature of the trade returns for November is that imports from the United States for the month show a decrease of \$1,500,000 as compared with October, while those from Great Britain show an increase of about \$1,200,000. The exports show a decline of approximately \$6,000,000 as compared with October, while those of the United Kingdom show an increase of \$5,600,000."

"The increase to the latter country is undoubtedly due to the shipments of wheat hurried out before the close of navigation."

"For the first eight months of the present fiscal year, exports to the United States declined \$7,500,000 and imports declined \$23,800,000. To the United Kingdom for the same period export declined \$36,000,000, while imports increased \$11,500,000."

High Commission Control in the Occupied Area

Proclamations Are Issued In Every Town and City of the Rhineland.

U.S. Army Alone in Power.

Coblenz. — Military control of the occupied areas of Germany, excepting the zone held by the United States troops, passed into the hands of the Germans, the inter-allied Rhineland high commission becoming the governing power, according to the terms of peace, with headquarters at Coblenz, every town and city of the Rhine land, the proclamation and ordinances of the high commission were issued, giving rights to the Germans that the commission, under the presidency of Paul Tirard, of France, is the supreme representative of the allied governments in the regions occupied by the armies.

In the American area, which remains, technically at least, under the armistice status until the United States takes definite action on the peace treaty, ordinances were published in the form of a general order from the commander of the zone, Major Gen. Henry T. Allen.

The program of the commission will be carried out by the Americans conforming with the other occupied areas of the Rhineland, through cooperation between the commission and the American military command.

Pierrepont B. Noires, appointed by the state department as representative to head the American section of the commission, will sit informally with the delegates of the European powers until the United States has decided upon the disposition of the treaty.

Deplores Crime Wave.

Toronto. — Deplored the fact that despite prohibition, crime was on the increase and the jail population was growing here, Mr. Justice Middleton in his charge to the grand jury at the opening of the assizes told the jury men that if they could suggest any way to curb the outbreak of crime it was their duty to do so. The judge said a wave of crime seemed to be sweeping over the whole world.

Manitoba Police Force Increased.

Winnipeg. — When Manitoba's new police force is organized and ready for duty, which Col. J. G. Ratray, head of the law enforcement department, states will be on April 1, it will be a strength of sixty men instead of the limited number at present. Specification of special constables with their other occupations will be a feature of the new system.

U. S. Troops Leave Siberia.

Washington. — A portion of the United States Expeditionary forces in Siberia is to be withdrawn immediately, Secretary Baker announced, adding that the withdrawal of the entire expedition was under consideration "in connection with the evacuation of the Czechs." The troops will go to the Philippines before being transported to the United States.

The government is to evacuate Silesia on Jan. 14.

The Newsprint Shortage

Mounted Police Are Instructed to See That Newsprint Order Is Enforced.

Ottawa. — The cabinet council took up the question of the newsprint shortage which is causing the suspension of western Canadian newspapers through the action of the Fort Frances Pulp and Paper company in defying the orders of the paper controller, Mr. A. Pringle.

The government, it is understood,

determined that the action of the paper controller will have full official support and that his orders must be carried out by the company in question.

The commissioners of the mounted police, Commissioner Perry, who is now in Ottawa, has been requested to see that the orders of Mr. Pringle for the delivery of newsprint to the western papers are enforced.

Ten Million For Technical Education

Professor L. W. Gill Coming West to Discuss the Question.

Ottawa. — Professor L. W. Gill, director of technical education under the federal department of labor, will leave on a trip which will take him to the Pacific Coast conference on technical education which will be held with all the western provincial governments, and it is hoped that agreements tending to the promotion of this form of education, may be consummated. The federal government has set aside the sum of ten million dollars for the promotion of technical education in Canada, which is designed to cover a period of ten years.

Agreements provide that the provinces shall expend an equal amount to that which they receive from the Dominion government.

Berlin Riots

Forty-two Killed and Over One Hundred Were Wounded.

London. — Reuters' Berlin correspondent, under date of Wednesday, says it is officially announced that 42 persons were killed and 105 wounded in the Reichstag fighting. The estimates of the Berlin papers of the dead in the rioting place the dead in excess of thirty and the wounded at one hundred.

Quiet prevailed during the night, the street patrols were heavily reinforced.

Eyewitnesses estimated the casualties in the riots in Berlin on Tuesday at 50 killed and 100 wounded, according to the Reuter correspondent. The police were finally compelled to throw bombs among the rioters, causing a panic, in which many were struck by bullets and numbers, including many women, were trampled under foot.

Facing Serious Charges

Half Million Dollar Bail Is Set for Youths in Chicago.

Chicago. — Five youths, all under 22 years of age, who are charged with half a hundred robberies and the attempted murder of policemen, will have to produce nearly half a million dollars in bonds before they are released.

After thirty victims of robberies had identified the prisoners, Judge Farckas fixed their bonds at a figure which he said "would keep them out of trouble for some time."

The five bonds' aggregate \$430,000. That of Henry Olson, the alleged leader of the band, was the highest, being fixed at \$180,000. The next highest bond was \$90,000.

Italian Flier in Long Flight

Completed 435 Miles of Journey from Salonic to Adala in Caproni Airplane.

Rome. — The Caproni airplane which left here Saturday to start a route for the Rome-Tokio flight being arranged for by the Italian government, left Salonic at 9:30 o'clock Sunday morning for Adala, on the gulf of the Adalia, and arrived at the latter place at 3:30 o'clock the same afternoon, according to advices received here. From Salonic to Adala, the flying distance is approximately 435 miles. The plane maintained a speed of about 72 miles an hour over this course.

Admiral Napier Will Visit U. S.

New York. — Vice-Admiral Sir Thomas Napier, who commanded a British cruiser squadron in the battle of Jutland, will visit the United States within the next ten days. He will go to Bermuda, where he will assume command of North America and West Indies stations of the British fleet, it was announced here. Admiral Napier was mentioned in despatches several times during the war and was created a companion of the Bath.

Say Treaty Will Be Ratified Soon.

Chicago. — William Jennings Bryan, en route to Washington, predicted that the senate would ratify the Peace Treaty on Thursday. While giving no specific reason for expecting this action, Mr. Bryan said that the senate must bow to the public demand that there be no more delay.

"The people want action," he said, "instead of words."

Six Years to Force Prohibition.

Chicago. — A six-year job faces federal prohibition agents in making the United States dry, according to H. M. Gaylord, deputy commissioner of internal revenue of Washington, D.C., who addressed agents and inspectors of mid-western states.

W. N. U. 1299

Heavy Fighting With Bolshevik Forces

Seventeen Columns of Polish Troops Are Reported to Have Been Captured.

London. — The Bolshevik forces in Siberia are moving eastward rapidly along the trans-Siberian railway. The capture of seventeen columns of Polish legionaries, sixteen guns and 2000 men at the Pacific Coast conference on technical education which will be held with all the western provincial governments, and it is hoped that agreements tending to the promotion of this form of education, may be consummated. The federal government has set aside the sum of ten million dollars for the promotion of technical education in Canada, which is designed to cover a period of ten years.

The occupation of Balaya station, about forty miles east of Krasnyarsk, is also reported. The communication says that in the Revol station region fighting continues. In the region of Jacobstadt the Bolsheviks retired about six and a half miles from the river Dubna.

Assist Stranded Soldiers

Help Will Be Given Individual Cases of Discharged Canadians in England.

Ottawa. — Questioned as to a report that provision was being made for bringing back to Canada some 2000 Canadians who had taken their discharge in England and were now in stranded circumstances, Hon. J. Alder, minister of immigration and colonization, who is also acting minister of militia, stated that no such wholesale discharge had been taken.

Quiet prevailed during the night, the street patrols were heavily reinforced.

Eyewitnesses estimated the casualties in the riots in Berlin on Tuesday at 50 killed and 100 wounded, according to the Reuter correspondent. The police were finally compelled to throw bombs among the rioters, causing a panic, in which many were struck by bullets and numbers, including many women, were trampled under foot.

Want \$200,000,000

Manitoba Great War Veterans Pass Resolution on Big Reconstruction Policy.

Winnipeg. — A resolution urging the federal government to set aside an appropriation of \$200,000,000 for the purpose of carrying out a reconstruction policy and for the establishment of returned soldiers' colonies. G.W.V.A. re-establishment plan, was adopted by the Manitoba branch of the Great War Veterans' association.

The scheme suggested in the resolution includes a comprehensive system of development of the natural resources of the Dominion.

Robbers Taken by Surprise

Police Declare Plot Was Made to Steal Liquor to Sell at High Price in U. S.

St. Paul. — Railroad detectives surprised robbers attempting to break into a freight car containing 1,600 cases of whiskey estimated to be worth \$216,000 en route to Winnipeg from St. Louis, and Jack Burke, local prize fighter, was shot and killed by a policeman.

Harry Rabinovitch, of Winnipeg, said by federal authorities to have purchased the liquor in St. Louis and plotted to have the car robbed here while on its way to Canada where the whisky could be sold for higher prices than are being paid in Canada, was arraigned before a federal commissioner. He pleaded not guilty to the charge of conspiracy to rob the car and was remanded to jail. He was unable to furnish \$25,000 bail.

Ontario to Censor Theatre Posters.

Winnipeg. — The Telegram's Toronto correspondent states that an order-in-council has been passed by the Ontario government appointing a board of censors for the purpose of passing on posters, hand bills, cards, newspaper and periodical advertising banners, flags, photos, and lobby displays in picture theatres. The charge to the film exchange will be \$150 and to the theatres \$10 each. All advertising must be censored before they appear in the newspapers under a penalty of from \$20 to \$100.

Alberta Liquor Profits.

Edmonton. — The profits of the Alberta government on liquor sold within the province under the provisions of the act, amounted in 1919 to about \$400,000. This information is contained in a statement issued by Attorney-General Boyle.

Saskatchewan's Population.

Regina. — Saskatchewan's population is now \$3,267, according to an announcement made in the legislature by Premier Martin, who based his statement on figures compiled by the vital statistics branch of the provincial health bureau.

Demand to Dutch For Surrender Of Ex-Kaiser

Bootlegger Shot Jailer And Escaped

McCrill Pulled a Gun and Shot the Jailer Through the Forehead.

Minot, N.D. — Ward McCrill, serving a 90-day sentence in the jail here on a bootlegging charge, shot and killed Ernie Thompson, the jailer, and escaped. The police officials and citizens scoured the countryside for him.

Thompson was looking McCrill up for the night when the latter pulled a gun and shot the jailer through the forehead. Thompson died instantly.

According to other prisoners, McCrill seized the jailer's keys and unlocked his cell door. Shouts of the prisoners attracted passers-by, who gave alarm. Tom McCrill, a brother of Ward McCrill, visited the latter and the jail and officials placed him under arrest pending an investigation to determine how Ward McCrill received the gun.

Ward McCrill's wife lives at Edmonton.

Scrap in Reichstag

New Disaster Occurred in the Assembly in Berlin.

London. — Disorders scenes occurred again in the national assembly when Deputy Raehler attempted to deliver a speech regarding the incidents of Tuesday, according to a Berlin despatch to the Exchange Telegraph. The independent constant identified Herr Kandler, an attempt had made, he declared, to put the parliament in session, and the most democratic method in the world under the dictatorship of the street agitator. If the people of Germany now realized how disastrous the tyranny of minority rule would be, said the bloodshed on the previous day, the first since the ratification of the peace treaty would not have flown in vain.

Australia Still Bars German Goods.

London. — Notwithstanding the exchange of ratifications of the German peace treaty, putting it into effect, the Australian government is to keep still in use the Customs act, prohibiting the importation of German goods, it is declared in a Melbourne message.

Holland and the League.

The Hague. — Jonkheer Karnebeek, the foreign minister, announced that although Holland had not yet decided to enter the League of Nations, delegations have been sent to Paris to arrange Holland's participation in the League's plans regarding shipping on the Rhine.

Two Americans Killed in Russia.

London. — Two Americans were killed and three wounded in a clash with an armored train of Gen. Semanoff, commander in chief of All-Russian armies, between Lake Baikal and Verkneudinsk in the province of Transbaikalia, according to the correspondent of the Daily Mail, at Harbin. The Americans were reported to have captured the train.

No Relief From High Prices.

Prof. G. W. Warren Thinks Cost of Living May Drop in Four to Fifteen Years.

Winnipeg. — People who look for an immediate drop in the cost of living are due to disappointment, according to Prof. G. W. Warren, of Cornell university, one of the speakers of the Manitoba Rural Credit Societies here.

The only consolation Prof. Warren could give an expectant world was this: "Although the pre-war level may never be reached, it seems probable that a very considerable drop in prices will take place in five to fifteen years."

High prices, Professor Warren attributed not to the peace treaty, as he said some Americans were prone to believe, not to profiteering, and increased wages, but to inflated values, due to war conditions, and the world shortage of goods.

Armed Bandits Hold Up Bank.

Philadelphia. — Four armed robbers held up the Beaver-Brook Bank in the suburbs, got \$6,000 in cash and some securities and escaped after holding up the cashier and other employees. It was one of the most daring daylight robberies ever executed in this city.

Paris. — The supreme council has drafted a note to the Dutch government asking for the extradition of the former German emperor. The note refers to article 227 of the treaty of Versailles and invites Holland to join the allied powers in the accomplishment of this act.

Article 227 of the treaty of peace with Germany declares: "The allied and associated powers publicly arrayed William II. of Hohenzollern, formerly German emperor, for a supreme offence against international morality and the sanctity of treaties." "A special tribunal will be constituted to try the accused, thereby assuring him a trial as essential to the right of defence. It will be composed of five judges, one appointed by each of the following powers, namely, Great Britain, France, Italy, Japan and the United States of America."

The article also declared that it will be the duty of the tribunal to fix the punishment which it considers should be imposed.

Odessa Advance Stopped

Gen. Denikin's Army Repulsed Five Front Attacks on Aksei.

London. — The British military mission with Gen. Denikin at the latter's headquarters in Ekaterinodar, reports that the Caucasus army in the line behind Aksei river repelled in heavy fighting five frontal attacks and an attempt to turn its left flank. The report of the British mission says the advance of the Bolsheviks on Odessa has been stopped. It also states that the report that General Denikin has been superseded by General Wrangle or any other commander is untrue. The statement says the Don Cossack army holds the line of the Don river from its junction with the Aksei to its mouth and that the Reds failed to force the passage of the river at any of the five points where this was attempted. Crossing the river would be difficult, it is said, except for small parties of cavalry, because the roads are deep in mud.

The volunteer army is said to be holding the line from Nikopol to Melitopol, north of the Crimea.

Two Americans Killed in Russia.

London. — Two Americans were killed and three wounded in a clash with an armored train of Gen. Semanoff, commander in chief of All-Russian armies, between Lake Baikal and Verkneudinsk in the province of Transbaikalia, according to the correspondent of the Daily Mail, at Harbin. The Americans were reported to have captured the train.

Toronto. — Canada's need, more production, was emphasized by Sir Edmund Walker, president of the Canadian Bank of Commerce, at the bank's annual meeting here. Sir Edmund said:

"While we and the rest of the world are failing to produce on a sufficient scale to provide for human comfort and to pay our debts, the price of everything has so increased that although our clearing house and trade returns show higher figures in money, these generally represent transactions based on smaller quantities of merchandise and because we think in terms of dollars and not of merchandise, we are living in a fool's paradise."

Sir Edmund urged a continuation in the development of the industrial resources of the country in a similar spirit of co-operation to that which had won the war. "The rising curve of prices," he said, "cannot be made to turn downward without an increase in production nor can we face the heavy obligations left by the war except by greatly increasing production."

Sir John Aird, general manager of the Bank of Commerce, gave a resume of the situation in respect to foreign exchange. "The reliability of our dollar," he declared, "can only be accomplished by saving, economy and greater production."

DON'T think that because your stomach can digest food you are proof against indigestion. The most important digestive work is done by the bowels, liver and kidneys. Unless these are active and work in harmony, you are in danger of self-poisoning.

Snow Leopard.

The beautiful snow leopard, the greatest prize of big-game hunters in India, is rarely found below a height of 11,000 feet and is even there extremely rare. It is both wild and savage, and the natives have a superstitious fear of its white coat and deep-green eyes.

Minard's Liniment Co., Limited.

"Sirs—I have used your MINARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any equal to yours."

If rubbed between the hands and applied frequently, it will cure colds in 24 hours. It is also the best for bruises, sprains, etc.

Yours truly,
J. G. LESLIE,

Portsmouth.

Canada's Sales

Of Export Wheat

Equality of Price for All the Farmers

Is Aimed At

In official quarters it is estimated that about two-thirds of the exportable surplus of the Canadian wheat crop has already been contracted for and handled by the Canadian Wheat Board, while the United States market was opened to Canadian wheat on December 15. The Wheat Board will continue to handle the marketing, and the proceeds of grain sold will be pooled, so that those who have held their wheat will not have a great advantage over those who have already marketed it.

Equality of price for all the farmers is aimed at. The total amount of Canadian wheat exported up to the end of November was 48,379,315 bushels, of a total value of \$110,188,265.

The principal countries and ports to which export were made are as follows: Great Britain, 33,395,300 bushels; United States, 4,688,987; France, 2,730,161; Italy, 1,119,290; Gibraltar, 1,659,484; Belgium, 1,730,374; Greece, 2,665,540; Rumania, 45,333.

Basis of Canada's Future Success

Canadian Development Must Depend
Upon a Constant Influx of Suitable
Immigrants

Ernest H. Godfrey, of the Dominion Bureau of Statistics, Ottawa, in a paper before the Royal Statistical Society on "Fifty Years of Canadian Progress as Illustrated by Official Statistics, 1867-1917," drew attention to the remarkable increase in the forestry reserves of the Dominion, due to the policy of the Dominion and provincial governments. From 1901 to 1918 the reserves had, he said, increased from 7,413,760 acres to 152,839,555 acres in addition to an estimated 20,000,000 of acres of unalienated land in British Columbia.

Discussing the future, Mr. Godfrey said that to a large extent Canadian development must depend upon a constant influx of suitable immigrants, and of capital. It was probable that settlement in well-organized communities in which women would take their natural part, would relieve the isolation of prairie farming. The opening of the Panama Canal and the construction of the Hudson Bay Railway should provide important new outlets for Canadian products. It would be bold to attempt to foretell the future effect of aviation on national progress, but it was already evident, he remarked, that exploration and prospecting in lands inaccessible by rail would benefit immensely by this means of locomotion. There was a practically unlimited field open to Canada in every direction, whether as regard agriculture, forestry, fisheries, minerals or manufactures.

She was the sort of a woman who always tells everybody her business. With a cheery smile she settled herself at the counter and began: "My husband has been very ill—very ill—so we've got to do shopping; and I want a shirt."

"Goodness, madam," said the salesman, courteously: "stiff front and all."

"Oh, no!" she exclaimed, in horrified tones. "The doctor says he must avoid anything with starch in it."

Shake the hands of some people and give some other people the shake.

You are further warned that cutting at a corn is a suicidal habit.

British Columbia Salmon Pack

Seventy-Five Per Cent. Has Been Exported Principally to Great Britain.

Practically all of the British Columbia salmon pack for the 1919 season consisted of 1,393,156 cases and valued at more than \$15,000,000, has been sold. Seventy-five per cent. has been exported, principally to Great Britain. Canned salmon in smaller and varying quantities has been shipped from this province to other points in the British Empire, and to France, Italy, Greece and several other European countries says the Vancouver Province.

No difficulty was experienced by the British Columbia cannery in disposing of the red varieties, such as the sockeye, cohoes and red springs and a considerable proportion of these grades were sold in Canada. The sockeye pack, comprising 369,445 cases was set for a figure approximating \$6,000,000.

While there was not the same demand for chum as for the more expensive grades, it is estimated by the canners that 50 per cent. of the chum pack has been sold. The pack totalled some \$72,035 cases, and on the basis of \$6.75 per case of one-pound tins, and \$7.75 for half-pound flats, the price would be practically \$2,500,000. The successful marketing of the 1919 chums is the more pleasing to the salmon packers as the 1918 chums were not on the market for some time before purchasers were found.

Italy, Greece, and other countries bordering on the Mediterranean have placed orders for chums which have been filled by local concerns. A fair proportion was shipped to the Orient.

More Irrigation Wanted

Farmers of Southern Alberta Are Strongly in Favor of Irrigation Development.

An enthusiastic meeting was held at Warner, Alberta, a few days ago under the formation of an irrigation district which will embrace about 60,000 acres of rich land surrounding Warner and Milk River.

Farmers and business men throughout this part of Southern Alberta are strongly in favor of irrigation development. They believe that irrigation is the one necessity to stabilize agriculture here and they wish to participate in the big program of reclamation which is about to be carried out. The source of water supply will be the Milk River.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison may now take a little Chinaman's remedy to cure a drug called freezezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, falls out with the fingers.

It is a sticky elixir compound which dries the moment it is applied and drives away the corn without flaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezezone will cost very little at any of the drug stores and is of great value to every hard or soft corn or callus.

A Tribute to Manhood

Prince of Wales Has a High Sense of Duty.

No visitor of any rank from any country ever had such a welcome from America as the young Prince of Wales. To what is all this due? It is due, in the minds of all who have studied the records of his tour, to qualities and ideals which would give distinction to the man if he were not the Prince. He has a clear sense of humor, sincere sympathy and a high sense of duty. He has brains. His speeches, which are his own, reveal some gift of oratory and a very hearty common sense. His actions show a level head on attractively young and unspoiled shoulders. He has, we are perspired, done work of extreme importance for the Empire and for civilization. We may all pay him a tribute of quite genuine homage without suspicion of sycophancy or fear of turning him quite sane head—London Daily Express.

No Wonder.

Cirio Dealer: "That's, sir, is a rare old revolver, carried by Christopher Columbus."

Customer: "What? Why, revolver was not invented in Columbus' time."

Cirio Dealer: "I know. That's what makes this one so rare."

Successes For Western Canada

Prizes Won at the International Exhibition Held in Chicago.

At the International Exhibition held at Chicago on December 2, competitors from Western Canada again demonstrated the superiority of their grains by carrying off, among others, nine prizes and several ribbons for hard spring wheat. The successful exhibitors, in order, were as follows: J. C. Mitchell, Dahinda; J. S. Field, Regina; Seager Wheeler, Rosther; Ander Brothers, Wilcox; A. Talt, Semans; Robert Clark, Spica; and J. F. Cadors, South Forks, all from Saskatchewan; E. F. Young, Oak Lake, and Samuel Larcombe, Birtle, Birtle, represented Manitoba.

In the Durum classes, F. Kereck and E. F. Young, both of Oak Lake, Manitoba, won first and second, respectively.

In six-rowed barley, Seager Wheeler, Rosther, Sask., and Samuel Larcombe, Birtle, Man., second.

It will be remembered that Mr. J. S. Field was the winner of the sweepstakes and C.P.R. cup for hard spring wheat and first prize and sweepstakes for oats at the International Soil Products Exposition, at Kansas City recently, while the successes of Seager Wheeler are so well known as to need no enumeration.

End Your CATARRH Today

Dairying Advancing In Saskatchewan

Fast Coming to the Front as a Dairy Producing Province

F. H. Auld, deputy minister of agriculture for Saskatchewan, is authority for the statement that creamery butter products in Saskatchewan have increased during the past year from thirty to thirty-five per cent. as compared with the year 1918. The increase in 1918 over the year 1917 amounted to 40 per cent.

Saskatchewan is fast coming to the front as a dairy producing province, but even more rapid development is looked for in the future. Quality counts and anything that can be done in the way of emphasizing the need for a higher quality of butter is considered a step in the right direction.

Use Catarrhone to prevent—use it to ward your winter ills—it's pleasant, safe and guaranteed in every case.

The Obstinate Obstacle.

Tom: "Why won't she marry you? Is there another man in the case?" Dick: "I'm afraid there is."

Tom: "Do you know who he is?" Dick: "Yes; her father."

Minard's Liniment Cures Colds, Etc.

The Harsh Note.

The band was rehearsing for a concert when the conductor was nearly frightened out of his boots by a terrible blast from the trombone player in the corner.

"What are you doing?" roared the conductor.

"I'm sorry, sir," came the reply. "It was a fly on my music. But," he added, with just a touch of pride, "I played him!"

Lots of pugilists blow hard before the fight that they are unable to get in a blow during the progress of the disturbance.

Minard's Liniment Cures Distemper.

Germany Shipped

Guns to Mexico

Exportation of War Material Is Violation of Armistice.

Two shipments of machine guns and machine gun accessories being sent to Mexico from Germany and discovered in transit, via Holland, have been held up by the Allied military authorities, according to information reaching United States officials at Coblenz.

The exportation of war material by Germany is a violation of the armistice and peace treaty. The German government has been asked to explain the shipments and notified not to attempt any similar exportation of such arms.

The first shipment consisted of four carloads of second hand machine guns, all jacketed and ready for ocean transport. This shipment comprised 600 machine guns, according to Marshal Foch, the guns arrived in Holland on November 28, the sender being the firm of Brockleman and Son, Gunn, of Cassel, the consignee was the Johan Muntz Arms and Trading Company of Amsterdam.

The communication to the Inter-Allied Armistice commission at Cologne, giving notice of these shipments, says that Marshal Foch has information showing that the shipments had been made "Across Holland, with destination Mexico."

When in doubt listen to your wife.

A Nervous Wreck

BY DR. R. L. GRANTIER.

How many business men feel fagged out, nervous, with a "soggy brain"—worn out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a

common cold to grippe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anurit" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anurit" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

THE NEW FRENCH REMEDY, THERAPION No. 1 THERAPION No. 2 THERAPION No. 3

No. 1 for Bladder Catarrh, No. 2 for Chronic Weakness, No. 3 for Skin Diseases.

Of Local and General Interest

There is a motor car to every fifty persons in Canada.

The man who loves his work never watches the clock.

The Great War Veterans have purchased one of Fernie's finest hotels.

Mr. T.A. Hornibrook is to be the 1920 president of the Calgary board of trade.

The provincial revenue from auto licenses alone amounted to \$600,000 last year.

The people of New Zealand have voted against prohibition, and that country is now among the wets.

One of the big German Imperator liners is to be handed over to the C.P.R. for use on the Canadian route.

Eight Methodist conferences in the United States have agreed to pay ministers a minimum salary of \$1500.

A guy just remarked: "Don't do no advertising in this paper unless ya wants pay more income tax."

Cowley Oddfellows will hold their annual ball in the Tustian Hall on the night of Friday, Feb. 6th.

The Roman Catholic church at Champlain, Quebec, was partially destroyed by explosion of the heating system.

Imperial ex-service men are being given the opportunity of settling in Canada under the Soldiers' Settlement Act.

"Benny" Benson has unloaded a very promising and uncomfortable display of mumps and is back at his post in the meat market.

The American war department has asked congress to authorize the expenditure of \$15,650,025 for the purchase of airplanes and motors.

Men discharged from the Canadian army with "Discharged for Misconduct" written on the certificate, are to be given new certificates.

Mrs. E. Morino is down from Edison, having been summoned to the bedside of her father, Mr. Le Jeu, who is seriously ill at the local hospital.

A change in the C.P.R. schedule came into effect on Sunday last, the morning train is now due at Blairmore at 8:28, and the evening train at 10:40.

We were in error last week in stating that Mr. Rhynas had resigned the management of the Belgian-Italian Co-op. Mr. Rhynas still manager of the store.

Recent statistics show that forty per cent of the people of Newfoundland have been addicted to taking the drop." And now geologists port that the whole Dominion is taking drop—that the island has sunk in recent years, while Vancouver Island is higher and larger than it was fifty years ago.

A young lady of Frank took occasion to make up for sleep lost the night previous by dozing off while enroute per train from Blairmore to Frank the other night. She woke up and found herself at the crest station, and the walk down there to Frank was so unaccompanied with protection that the distance of a mile and a quarter was covered in nine and a quarter minutes, standard time.

The Manitoba court of appeal dismissed the appeal entered by the defense in the R. v. Kressel case against the verdict and sentence passed by Mr. Justice Metcalfe and jury. The decision was unanimous and the defense will be able to carry the fight to the supreme court of Canada on that count. The defense counsel, however, can make application for hearing before the privy council in London, England.

A terrible "flu" epidemic is sweeping Poland.

The first degree was conferred on one candidate at the regular I.O.O.F. meeting on Tuesday night.

James Ramsey, M.P.P., offers \$1000 to the Edmonton board of trade if 1000 members are secured.

Thrift Stamps to the extent of \$1210.00 were sold to pupils through teachers of Stellarton, N.S. schools.

A dance given by the Bohemians or Czech-Slovaks at the Frank pool hall on Monday night was well attended.

A spotter was in town on Wednesday morning—not worrying about the capture of law breakers, but waiting for a satisfactory bid to get out.

A large number of local folks attended the whist drive at the Sanatorium on Saturday night last, and report having had a glorious time.

Rev. F.W. Dafoe, of Lethbridge, and Mr. H. Trotter, of Calgary, addressed a meeting at the Union church on Wednesday night in the interest of the great inter-church forward movement.

Methodists, Baptists and Presbyterians of West Vancouver have united in one church under one constitution. A compromise was reached in baptism that was agreeable to the three denominations.

E.T. Saunders, owner of the Pihoer Creek Echo, and formerly at Tisdale, Saskatchewan, shot and killed two son-in-laws. A bitter dispute preceded the shooting.

John Watkins, a hoioesteader near Tisdale, Saskatchewan, shot and killed two son-in-laws. A bitter dispute preceded the shooting.

Pincher Creek's secretary-treasurer for 1920 will receive a salary of \$1500, duties to include assessing in addition to those specified in the town act.

Over five hundred lives were lost when the French steamship Africaine sank in the Bay of Biscay on January the 10th. Only twenty-six persons were rescued.

An excellent quality deposit of common salt has been found in a lake bottom in the vicinity of Major, Alberta. A company has been formed to work it.

The town council of Peace River has decided that the town bell shall toll at 6, 12 & 6 during the day. This decision was made instead of installing a town clock.

The Blairmore members of the Alberta Teachers' Alliance will hold a dance in the local opera house on Tuesday night next, for which invitations are being issued.

Because of an accident which happened some time ago, in which he received bodily injury, J.W. Adams is suing the Edmonton street railway for \$12,000 damages.

At the annual meeting of the Cowley Women's Institute, held on December the 27th, the following officers were elected for the ensuing year: President, Mrs. D.R. McIvor; 2nd vice-president, Mrs. H. Harrison; 3rd vice-president, Mrs. M. Hargrove; secretary-treasurer, Mrs. C. Bundy.

Mr. G.M. Ponton, government mining engineer, is on the way west from Ottawa. His mission is to make a survey of industries and resources of the Canadian west.

Mr. Ponton will likely spend some time in the Crows' Nest Pass, where a few years ago he made many friends. He but recently returned from overseas.

Schubert's teacher, after giving his pupil a few weeks' instruction, threw up his hands with the exclamation: "He knows everything—God Almighty has taught him!"

Saturday was a busy day for the local bank and stores.

Chinese bandits have kidnapped Mr. Shelton, a Christian missionary in China.

Premier Stewart appeals to women for greater sympathy to war labor.

Several herds of elk have been seen of late in the vicinity of south of Lundbreck.

The town of Nanton proposes a by-law, imposing a rather stiff tax on dancers.

From three to four million dollars will be spent in the Alberta irrigation project.

It is said that all the soldiers in the armies of Sweden and Denmark can read and write.

Some people should make excellent aviators. It takes very little to set them up in the air.

It costs the Blairmore school district in the neighborhood of \$40 per pupil to operate the school.

Charged with the murder of his mother-in-law by the injection of eau de castor, a physician of Markeson, Wis., was jailed.

Fernie junior bockeyists were defeated by Coleman juniors at a good game on Coleman ice on Saturday night last.

Present day styles for evening dresses would indicate that women are endeavoring to cut high cost of living down the back.

John Watkins, a hoioesteader near Tisdale, Saskatchewan, shot and killed two son-in-laws. A bitter dispute preceded the shooting.

Pincher Creek's secretary-treasurer for 1920 will receive a salary of \$1500, duties to include assessing in addition to those specified in the town act.

Motor Truck Transportation Cheaper For The Short Haul

This form of Transportation will develop and serve large proportion of the Province with Good Fast Service.

By the President Alberta Truck Transportation Co., Ltd.

Within the past few years transportation of freight, express and passenger by automobile trucks has grown enormously.

Experience shows this method of transportation to be more economical and serviceable and by far a faster method of transportation for short hauls than the railroad. Motor truck transportation is now in permanent use in many of the leading commercial centres of the country, also in the United States of America. In all cases where the transportation company has been properly organized and managed it has provided an economical and faster service for the wholesaler, retailer, manufacturer and farmer, and has been of vital importance in developing the districts in which it operates. This kind of transportation is not a new thing, but it is something new to the motor world. All commodities or goods that are shipped have to be hauled some given distance to the railroad, and then hauled from the railroad. These hauls have been made by horses and wagons. Motor trucks have proven themselves capable of hauling these goods not only to the railroad point, but for short distance hauls, direct to the point of delivery—thus saving the extra handling charges of delivering the goods or commodities—much cheaper and quicker to their destination.

These transportation companies do not only operate on good paved roads or in settled communities, but operate in districts away from the railroads, where long distance hauls and drives have to be made by horses and wagon.

Take for example, the livestock trade. In the state of Iowa, 90 per cent of this product is produced away from the railroad, where they have to be driven on foot to the nearest shipping point, or transported by horse and wagon. The shrinkage on livestock driving and shipping in a radius of 75 miles of the various stockyards could be saved during all seasons of the year. As the road development plan progresses, that the weight of the animals will increase, that the weight of the load of trucks will increase, and the tonnage will increase proportionately and within the next few years it is entirely possible that all livestock driving in a radius of 75 miles of the various stockyards could be handled exclusively by motor trucks.

As an example of what has already been accomplished in the state of Iowa, Omaha, Sioux City, Waterloo, Des Moines, Cedar Rapids, Davenport, and the city of Iowa City, the Iowa Highway Transportation Committee has stated that motor trucks have been used for the packing houses for the handling of hogs, cattle, sheep, goats, and cattle, and 61,402 head of sheep. Had it been necessary to haul this number of animals by team and wagon, the cost would have been \$1,000,000. The total road mileage required for the hauling of the stock by teams, would have required 21 cars each, which would have been required.

The total road mileage required for the hauling of this livestock by truck has been estimated at no less than 2,513,310 miles. This livestock was handled by drivers owning their trucks, and by the truckers themselves driving over scheduled lines throughout the state.

These advantages, as enumerated above, are based on a sound economic foundation, and the work is therefore bound to endure.

The great bulk of the transportation of livestock over the highways has occurred in the great stock raising states of Indiana, Nebraska, Iowa, Ohio, Missouri, Kansas and Texas. Although each of the stockyards keeps a record of the total number of animals driven into the yards in, contrast to those shipped by railroad or by boat, the number hauled by motor trucks as compared with horse wagons or converted passenger cars is not kept separately, so that the figures given below for the number of animals driven in exclusively by motor trucks are approximations furnished by the various stockyards.

The table given below shows that a general total of 1,889,580 animals, including cattle, calves, sheep and hogs, were driven in over the highways during 1919 to the stockyards at Indianapolis, Ohio, 211,149; 196,657 at St. Joseph, Mo., 169,319; 121,000 at Kansas City, Mo., 143,917; 107,940 at Fort Worth, Tex., 226,664; 106,100 at Louisville, Ky., 100,100; 74,742 at Peoria, Ill., 110,130; 82,569.

Total 1,889,580 1,310,327

For the number of cattle driven to the yards by motor trucks, the total number of cattle led to the yards, principally because of the net work of good roads surrounding the city. While these roads are not all used exclusively in connection with the city, nevertheless, passable for almost the entire year.

It is the opinion of the author that the use of such trucks the year round, is not feasible, as the number of animals hauled in leads on to two or three animals.

In this way all sorts of vehicles have been used on the roads, from the small two-wheeled trailer, capable of holding one cow with behind behind the driver, to the large two and three-ton trucks widely known as specialty of hauling livestock as a business. These large trucks haul as much as 20 cattle, 30 sheep, or 30 hogs to a ton, and provided the country roads permit of the use of such trucks the year round, it is the opinion of the author that the use of such trucks the year round, is not feasible, as the number of animals hauled in leads on to two or three animals.

The work may be divided into two classifications. The first and most important is the haulage from the farm within a radius of 50 to 60 miles, and the second is the haulage from the stockyards to the railroad terminals or to the cities. The work in the latter case is the same as in the former, but the animals handled by specialists in the work. The work is taken up the use of the larger trucks of the stockyards, and there are many companies some with special double-decked bodies for horses, which do nothing else but haul livestock.

Pounds of Pork and Sheep Are Saved

The work may be divided into two classifications. The first and most important is the haulage from the farm within a radius of 50 to 60 miles, and the second is the haulage from the stockyards to the railroad terminals or to the cities. The work in the latter case is the same as in the former, but the animals handled by specialists in the work. The work is taken up the use of the larger trucks of the stockyards, and there are many companies some with special double-decked bodies for horses, which do nothing else but haul livestock.

The Kamloops Standard says: A bank clerks' union has been organized in Montreal, and there will soon be a similar organization in Victoria, where the members would have lots of time to organise and also to regularly attend the meetings.

Next in order is a union of busbands with demands for hot biscuits daily and time and a half pay when working the days with the baby nights 50 per cent. increase in spending money, two pairs of decent socks per week and the freedom of the fleas.
